Thanks to the Culture Service of the Commune d'Ixelles and the VGC.

Losing loved ones.
Having to leave family behind in the home country.
Sudden deaths.
Not have been able to say goodbye.
Losing contact.

Many of us have to unintentionally and unexpectedly say goodbye to those we love. Not everyone finds the support and comfort they need to deal with this. And when the days are getting darker, this lack often feels so much more poignant.

I miss you wants to be a light in the darkness, and offer all those who need this the chance to connect with others, to share sadness about farewells and come out a little more strengthened and comforted if possible. Write it down, participate in a circle ritual (by sharing or in silence), feel the soft embrace of the texts and songs in a concert by STI.LL.

All this in 3 languages: Dutch, French and English.
